

# Gryphon 24

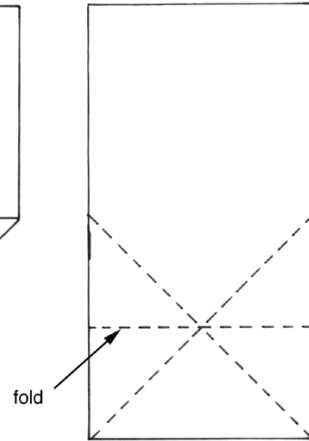

1. Take a sheet of paper and cut it so it matches the above size.

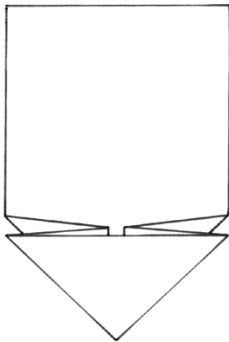

2. Fold as shown above.

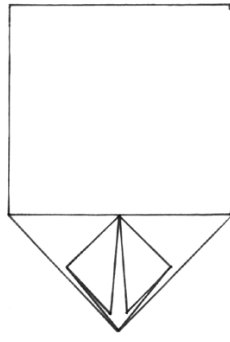

3. Fold again.

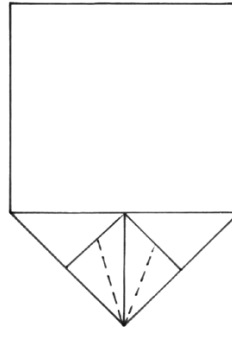

4. Open your page. The creases should be the same as above.

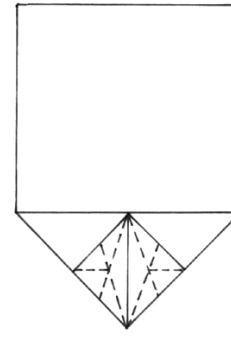

5. Fold sides along the creases as shown above.

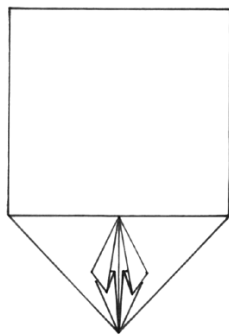

6. Fold the two points forward.

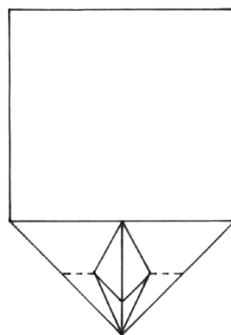

7. Fold along dotted lines and open again.

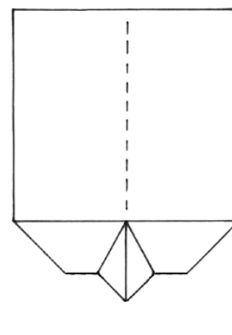

8. Again, fold along dotted lines and open again. Creases should be same as above.

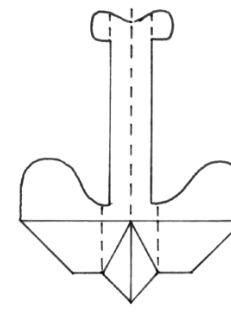

9. Press sides in and fold as shown above.

10. Fold bottom part of nose under.

11. Fold the plane along the center line and cut out the shape of the plane.

12. Fold the plane along the dotted lines as shown.

Test Pilot Tip - Hold the plane with the nose pointing toward you and throw it away from you. (You are actually throwing the plane backwards, but it works, try it.)
